

TVAC31240

Wall mount for speed dome

The wall mount is an accessory for ABUS PTZ dome cameras enabling the dome camera to be securely and sturdily attached to the wall. For effective protection against volatile weather conditions, the power supply unit of the camera can be mounted in the wall mount itself.

The mount (TVAC31200) and the integrated power supply housing for weatherproof installation are included in the scope of delivery.

Product highlights:

- Simple mounting of ABUS PTZ dome cameras
- Camera power supply unit can be mounted in the wall mount for protection from the weather
- Length of mount (reach): 310 mm
- For attaching to walls
