

How to Reset Your Combination

The new lock is preset to open at 0-0-0-0 at the factory.

To reset the opening combination to your own secret combination, follow the following steps:

STEP 1

Open the lock by aligning the opening combination number to the Guide Points and pull out the Lock Post. (Fig. 1)

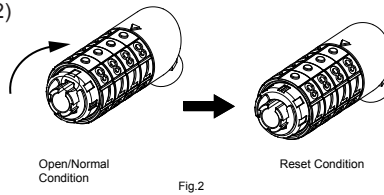

STEP 2

Rotate the Reset Button 90° clockwise. Now the lock is under "reset condition". (Fig. 2)

STEP 3

You are now ready to turn the dials to set your secret combination, such as phone number, birthday, etc.

STEP 4

After setting your secret combination, rotate the Reset Button 90° counterclockwise till it comes to a stop and back to its original position.

STEP 5

Verify your new combination before using your lock. Insert the lock Post all the way into the Locking Port but do not turn the dials. Pull out the Lock Post. Your lock is ready to use.

The reset operation is now complete. Repeat step 1-5 anytime you wish to change your secret combination.
